### New! Magna-Guide™ Sharpening System

- Transforms the Diafold® Sharpener into a Guided Sharpening System!
- Easy-to-Use - simply flip Magna-Guide™ over to change grits!

#### 7 - Angle Adjustability

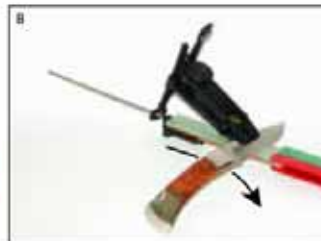

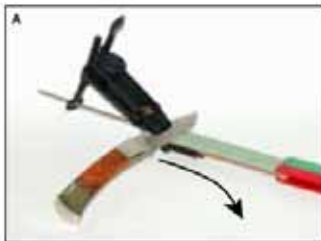

- More angle choices than any other blade clamp.
- Works with practically any blade shape.

#### Double Sided Diafold®

- The World's most Popular Diamond Sharpener!
- Use alone for many Knife and Tool Sharpening Needs!
- Available in a Wide Range of Grits!

#### New Deep Clamp Design!

- Securely holds Knives up to 3/8" Thick.
- Engineered Resin will not mar or scratch knives like metal clamps.

#### Diafold® Magna-Guide™ Sharpening System

Maintains a consistent sharpening angle throughout each stroke for quick, easy and precise sharpening.

### DiaFold<sup>®</sup> Convenience with Guided Sharpening Accuracy

#### Super Fast, Easy and Safe Guided Sharpening

It's a natural! The Double Sided Diafold<sup>®</sup> Sharpener offers portable, two stone sharpening at its best, the Aligner™ Blade Guide provides 7-Angle adjustability for the right edge every time, and the MAG – Magnetic Angle Guide joins the two!

DMT<sup>®</sup>'s unique polka-dot sharpener has become the industry benchmark for interrupted diamond surfaces. This new guided sharpening kit includes the FWEF with Extra-Fine 1200 mesh (9 micron) on one side and Fine 600 (25 micron) on the other. The perfect combination for keeping an edge razor sharp. Included is the MAG with its guide rod which works in conjunction with the blade guide. Set the guide rods to handle edges from hobby blades to cleavers, fixed blades to fine knives.
